We met Mr. M. Phalar, of Cincinnati, Sunday. Mr. Phalar is an old reporter of the Cincinnati Enquirer. He was the special of that paper at San Francisco and the author of the Chinese articles from that city. Mr. P. is a democrat, bred in the bone, yet he says the most difficult and disgusting work a reporter ever performed was to write up a democratic convention.

We met at the same time, Mr. O. P. Hume, formerly sporting editor on the Philadelphia Press. The conversation of these two gentlemen exceeded in interest a tale of romance.

Lincoln Shirts, the young man who was struck on the head by the handle of an Irishman, at a dance in Huntington township, as noted by us in our previous issue, died last week from his injuries. His skull was fractured by the blow. His sufferings were intense. The parties charged with the work are in jail. Shirts was a son of Mr. Benjamin Shirts, and is spoken of as a quiet, excellent young man, and of course there is considerable feeling in the neighborhood over the wanton act.

Two Boards of Equalization will act this year. A member will have to be appointed to serve on the State board which meets at Columbus next winter. Of the two Boards of our city, six new members will have to be appointed, and as the work will be of importance, we want good men, sterling and true; men with opinions and not afraid to express them. One Board will meet in May, another in September.

Mr. John D. Jones, living near Davis' mill, Perry township, lost his dwelling by fire last Wednesday. Most of the family were absent at the time, and it is not known how the fire originated. Of the contents nothing was saved but one bed and a lot of the contents. Among the property destroyed was an organ and \$215 in currency. Loss about \$1800, on which there was an insurance of \$800.

It is a very difficult matter to meet a man who has not worked the "16" puzzle and in a blind and innocent way he will inform you that "it only took 5 minutes;" yet the learned professor informs us that it is one of the impossibilities. All the old-time puzzles are raked up and re-acted.

We had a big snow Friday and for the next day or two tramped through the slush. Winter was lamblike but what of the spring?

The 30th man became too familiar with a spinning machine last week at the furniture factory and had need of the services of Dr. Cromley. His name was Matt Morris.

A flock of more than 10,000 robins are roosting in the Gallipolis Cemetery, where they have been for several days. From their manner they seem to be holding a convention, as they do not scatter in the day time. An interview shows the feeling to be thus: For Sherman 8,000, Blaine 1,500, Washburn 400, Grant 100. A sentiment prevails against Grant for the reason they fear a war.

The Ohio Senate, Friday, committed a great outrage upon the people of Gallia county. We wish we possessed a list of the ayes, we would like to publish them in black letters, that they might be more distinctly read and remembered. By a vote of 25 to 9 the Senate voted to pay John Porter for the burning of his barge, after refusing to amend the bill by inserting the claims of Gallipolis City and Gallia County. If the Ohio Senate has no better sense of justice, it had better adjourn and go home, and never return.

River Items.

The river is falling.

The Charleston Gazette says the steamer Katydind intends making round trips daily between Charleston and Gallipolis as soon as the repairing she is now undergoing is completed. Our Charleston friends will find a daily boat a necessity with the completion of our railroad.

Mr. Watt Shedd, who has been chief clerk of the Pomeroy ever since he entered the Pomeroy trade, and was on the St. James previous to that, is about to retire from the river to engage in the coal business at Ripley, where his family reside. He will be the regular agent there for the Pomeroy Coal Company.—Marine Journal.

It is feared that the Mississippi will overflow her levees.

Capt. Morgan Jenkins, of Middleport, late watchman on the Oil Valley, was drowned off the said steamer Tuesday night of last week. His body was recovered and taken to Middleport.

Pilot Jim. Miller, formerly of the steamer Ohio, will bring out the tow-boat John Hanna, repaired at Pt. Pleasant.

In a former item we stated that all local ports of any importance with the exception of our city and some others had formed associations of engineers. Since the writing of the above item the cord has been extended so as to include all but our city. Now let some active man take hold and secure honor to himself and benefit to his fellow men. Clerk Dudding, formerly of the steamer Telephone, is merchandizing on the C. & O. R. R.

The Boone brought 31 tons of pig metal from Elk last week, which was reshipped on the Ohio Saturday for Cincinnati.

The Rover, on the docks at the Point, will be out in about two weeks.

Cincinnati Gazette, Friday.—The remains of Henry Hertwig, late engineer of the Scioto, were taken from the wreck Wednesday and interred in the new cemetery back of Covington.

The average steamboat clerk is constantly deluged with questions by passengers as to when she will reach this or that place. It would be a novel and very useful idea to hang in the cabin an enlarged table showing distances with the probable time of reaching different ports on both up and down trips.

The new regulation requiring pilots to be examined for color blindness is producing trouble. Several old-timers who have not had an accident, have been refused a renewal of their license. The law is characterized as a humbug by river men as a class.

Mr. Wm. Preston, formerly mate of the old Annie Laurie, was killed a few miles above Cincinnati Friday morning. He was standing on a raft when a line broke, rebounded and knocking him on the timbers broke his neck. His body was shipped by here Friday night for Charleston, W. Va.

Mr. George Hamilton has resigned the wheel of the Scioto and will probably go back in the Parkersburg trade. Squire Sedor now rings the little bells on the Scioto.

Quarterly meeting at the M. E. Church next Sunday.

We are compelled to omit some interesting correspondence. Come again.

Council, Tuesday evening, ordered the vote upon the Railroad appropriation to be taken at the April election.
